

# Custom Optical ICs & Modules

EOSPACE has delivered many custom integrated optical circuits and modules for commercial and DoD applications

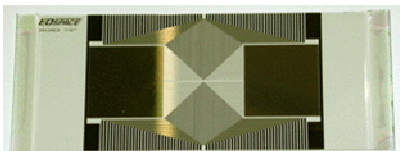

## Some Examples (call for custom requirements)

A dual 4-bit programmable time delay module with < 6 dB insertion loss.

A 32 x 32 (4 paths, each with 8 wavelengths) optical cross-connect module

Large-scale optical Integrated Circuits (ICs) with ~200 integrated devices on a single substrate
