

LiDAR Modules & Components

LiDAR Light Source

Customized Modules

Mini Isolator

Tap Photodiode

Circulator

Coupler

Modulator

Bandpass Filter

Collimator

(1+1) \times 1 Combiner

Fiber Mirror

Ribbon Fiber

We can customize power handling, fiber type, package size and any other parameter upon request. Please contact sales@fiber-resources.com for special request.

AFR Company Profile

Advanced Fiber Resources (AFR), established in 2000, is a leading supplier of fiber optical components. With its strong R&D and design capabilities, high efficient manufacturing process and strict quality control, AFR designs and manufactures standard and custom components, modulators, and provides contract manufacturing solutions to our customers. Our products are widely used in fiber laser, telecom, data center, fiber sensing, autonomous driving, biomedical equipment, as well as research institutes and universities around the globe. AFR's products have been sold to customers in more than 40 countries and regions worldwide.
